

## **ENVIRONMENTAL POLICY**

The human health, ecological balance, cultural, historical and esthetic values through the protection are essential to ensure economic and social development.

For sustainable tourism, protecting the environment and minimize the negative effects of our property, to contribute to the environment and the development of the region where we are located, we assigned our Front Office Manager and Housekeeper as responsible for our property's sustainable tourism program.

All environmental laws in force, compliance with rules and regulations, we will determine the exact goals and objectives for the protection of the environment. With these objectives and targets, during the operation of our property for minimize and restrict the impacts on the environment:

- We will reduce the usage of energy consumption,
- We will reduce the usage of water consumption,
- We will reduce the usage of hazardous waste,
- Whenever possible, support the usage of renewable energy, we will use the least environmentally damaging materials.
- We will organize trainings to our employees related to the environment, we will provide internal and external communication.
